Teacher Panel:		
Teacher Portal: To improve search facility by typing Name, Date of Birth, Nationality and ID number		
Search Jobs filters not working	http://www.ote.org.uk/oteadmin/wp-json/api/job-search?location=Berlin&type=Long_Term&category_search=Content	http://localhost.com/otetraining/wp-json/api/job-search?location=Stocaton&type=Stacy&category_search=Category
Api for get job category	http://www.ote.org.uk/oteadmin/wp-json/api/categories	
Api for job skills	http://www.ote.org.uk/oteadmin/wp-json/api/skills	
Api for get job locations	http://www.ote.org.uk/oteadmin/wp-json/api/locations	
Api for get job type	http://www.ote.org.uk/oteadmin/wp-json/api/job-types	
Teacher is unable to see his/her resume and Picture in the User Dashboard.	http://www.ote.org.uk/oteadmin/wp-json/api/my-profile	
List of Jobs	http://www.ote.org.uk/oteadmin/wp-json/api/jobs	
Video Course display nothing		
Webinar Configuration		
Online teacher registration: This section will allow the teacher to apply online for the Job, interview and class conduct		
In the quiz section student can easily submit the quiz answers but after submission, app does not show results regarding the same.		At present teacher can apply for job but it is not clear whether it is for job, interview or class conduct
Video content management system at backend to find and run the video courses on subject, date, time wise as and when required.		
Student Panel:		
Create webinar for live streaming - where students can join the session & get the training live		
Jobs Section: Where students can apply after having the trainings from the courses or skills base jobs.		
App does not show complete information of the respective student after Login.		
Features to implement		
***Video management systems (add, amend, find and run the video courses on subject, date, time etc wise)		
***Webinar Configuration to be done for all features		
APIs for webinar to be implemented so that student and kids will be able to attend the webinar for which he has paid		
Student Portal to be implemented. Search on student to be implemented. Getting complete student profile in app today		
Online Testing feature to check and complete if anything missing along with payment facility		
*** Kids Education to run and complete on both video and webinar system courses along with payment system		
Api for Teacher to register, login, update profile and view resume. If possible to implement login, registration process with payment on Free and Paid Job Post. Job search facility for the user is already there		
Refactoring Android/iOS releases
